

## Screen1: Login Page

## Screen2: Admin Page

The image shows a wireframe of an 'Admin Page' with two main sections. The left section, titled 'Add New User to System:', contains a text input field and an 'Add' button. The right section, titled 'Current User in System:', contains a large empty rectangular box and a 'Delete this User' button. Annotations with arrows point to specific elements: one points from a 'Back to Login Page' button to a box labeled 'Go to Screen 1. Login Page', and another points from the 'Delete this User' button to a box explaining that existing usernames will be displayed in the list area.
